

2015 HISTORICAL PRODUCT CONTENT LABEL¹

ECO-AdvantageSM is a Renewable Energy Certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see www.AEPenergy.com.

ECO-Advantage matches 100% of your electricity usage. In 2015, ECO-Advantage was made up of the following renewable resources.

Green-e Energy Certified New ² Renewables in ECO-Advantage		Generation Location
-Biomass	%	
-Geothermal	%	
-Hydroelectric	%	
-Solar	%	
-Wind	100%	National supply could be sourced from any of the following states including but not limited to: Texas, Iowa, Illinois, and Pennsylvania
TOTAL	100%	

1. These figures reflect the resource mix of the RECs delivered to ECO-Advantage customers in 2015.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying the United States includes: Coal (33%), Nuclear (20%), Oil (1%), Natural Gas (33%), Large Hydroelectric (6%), Other Fossil (<1%), and Renewables (7%). This resource mix was prepared in accordance with from U.S. Department of Energy/ Energy Information Administration.

The average home in the United States uses 900 kWh per month. Source: U.S. EIA, 2015.
