

## 2016 HISTORICAL PRODUCT CONTENT LABEL<sup>1</sup>

AEP Energy's Renewable Product Plan is a Renewable Energy Certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see [www.AEPenergy.com/commercial/renewable-energy](http://www.AEPenergy.com/commercial/renewable-energy).

AEP Energy's Renewable Product Plan matches 100% of your electricity usage. In 2016, this Renewable Product Plan was made up of the following renewable resources.

Green-e Energy Certified New <sup>2</sup> Renewables in Renewable Product Plan		Generation Location
-Biomass	%	
-Geothermal	%	
-Hydroelectric	%	
-Solar	%	
-Wind	100%	National supply has been sourced from the following state: Texas
<b>TOTAL</b>	<b>100%</b>	

1. These figures reflect the resource mix of the RECs delivered to customers on AEP Energy's Renewable Product Plan customers in 2016.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years. For comparison, the current average mix of resources supplying the United States includes: Coal (33%), Nuclear (20%), Oil (1%), Natural Gas (33%), Hydroelectric (6%), Other Fossil (<1 %), and Renewables (7%). This resource mix was prepared in accordance with the U.S. Department of Energy/Energy Information Administration.

The average home in the United States uses 901 kWh per month. Source: U.S. EIA, 2015.
