

## 2018 HISTORICAL PRODUCT CONTENT LABEL<sup>1</sup>

ECO-Advantage<sup>SM</sup> is a Renewable Energy Certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see [www.green-e.org/rec](http://www.green-e.org/rec).

ECO-Advantage matches 100% of your electricity usage. In 2018, ECO-Advantage was made up of the following renewable resources.

Green-e Energy Certified New <sup>2</sup> Renewables in ECO-Advantage		Generation Location
-Wind	100%	National supply has been sourced from the following state: Texas, North Dakota and Iowa
TOTAL	100%	

1. These figures reflect the resource mix of the RECs delivered to ECO-Advantage customers in 2018.
2. New Renewables come from generation facilities that first began commercial operation within the past 15 years. For comparison, the current average mix of resources supplying the United States includes: Coal (27%), Nuclear (19%), Oil (1%), Natural Gas (35%), Other Fossil (<1 %), and Renewables (17%). This resource mix was prepared in accordance with the U.S. Department of Energy/Energy Information Administration.  
The average home in the United States uses 901 kWh per month. Source: U.S. EIA, 2015.  
For specific information about this product, please contact AEP Energy, (866) 258-3782, [care@aepenergy.com](mailto:care@aepenergy.com), or [www.AEPenergy.com](http://www.AEPenergy.com).

ECO-Advantage is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at [www.green-e.org](http://www.green-e.org).
